Leaf Relief Continuous Hanging System

The patented Leaf Relief Continuous Hanging System with Access Panel strengthens your gutters by supporting them from front to back and end to end. This protects them from common gutter system damage like ladder crush, ice or snow load and warping. It also keeps leaves and debris from entering and blocking your gutters. Now you can keep a close eye on them through our new Access Panel. It's simply a smarter, stronger solution!

FEATURES & BENEFITS

- **Unparalleled Strength** – Standard gutter hangers will fail at 357*. The Continuous Hanging System holds up to 858 pounds*
- **Continuous Hanging System** – Standard gutter hangers are spaced, leaving weak spots along the gutter system. The Leaf Relief Continuous System supports the entire span delivering superior gutter strength, stability and durability
- **Low Maintenance** – No more climbing ladders to clean your gutters
- **Patented Aluma-Perf™ Technology** – Keeps leaves, twigs and pine needles out of the gutter. Most small debris is cleared by 6 mph breeze with wet debris removed in 23 mph wind
- **Low Profile** – Lays flat and fits snugly on top of your gutter for invisible protection
- **High Volume** – Drains more than twice the highest recorded rainfall ever recorded per hour
- **Efficient Installation** – Mounts directly to the gutter, eliminating the need to lift shingles and risk voiding roof warranty
- **Access Panel** – For easy monitoring of your home's gutter system
- **Weather and Pest Resistant** – Mounts securely and stays in place, resisting high winds, snow, ice and pest invasion
- **25-Year No Clog, No Overflow Warranty** – Premium guarantee of lasting quality and peace of mind (see warranty for complete details)
